

EXECUTIVE CARBON STEEL WELDING CONSUMABLES

Executive filler metals provide unparalleled quality, consistency and reliability designed to exceed the performance requirements necessary in today's demanding welding industry.

Executive products are manufactured to our stringent specifications, well beyond AWS/SFA standards and are certified to many industry approvals including CWB and EN.

Executive wires are highly consistent from batch to batch and offer very low fume and low spatter levels leading to excellent operator appeal.

Executive Carbon Steel products consist of high quality solid wires, metal cored and flux cored wires with all heats fully traceable with actual chemistries available on certified material test reports.

Available for most welding processes including GMAW, GTAW, MCAW & FCAW.

The Executive Carbon Steel wire line encompasses a wide range of grades and diameters available in a variety of packaging options from small spools to drums for robotic welding.
