

EXECUTIVE COBALT WELDING CONSUMABLES

Executive filler metals provide unparalleled quality, consistency and reliability designed to exceed the performance requirements necessary in today's demanding welding industry.

Executive Cobalt based products are produced to exhibit superior mechanical properties to challenge the most aggressive service environments. Clean, consistent welding wires and electrode allow operators to produce the highest quality welds.

Products are manufactured to our stringent specifications, well beyond AWS/SFA standards and are certified to many industry approvals such as EN.

All heats are fully traceable with actual chemistries available on certified material test reports.

Executive Cobalt products are available for most welding processes including SMAW, GTAW & MCAW.
