Rutile flux cored wire for all position with less fume emission AWS A5.20 E71T-1C/M H8, 12C/M H8 CWB W48-18 E491T-9/9M H8

AWS D1.8 Seismic Arc

Features and typical fields of application

- Frontiarc-711 is a mild steel flux cored wire for all position single pass and multi-pass welding with straight CO₂ or 75%Ar-25%CO₂ mixed shielding gas.
- Its low fume emission, minimized spatter generation formula creates a clean welding environment at any welding condition.
- Frontiarc-711 is the right choice for shipbuilding, bridge construction, tanks, the structural steel industry including seismic applications and other general fabrication use with its versatile welder-friendly characteristics.
